

Conference
19th September 2014
10-12 h
BRUSSELS (Conference room at
headquarters of the *Regione Emilia-
Romagna. Rue Montoyer,21*)

“High quality in VET international traineeships. For a high quality and sustainable mobility”

Education and Training 2020 (ET 2020) mobility benchmarks are to increase 5 % by 2020. Increasing quantity in mobility and keeping high quality is still a challenge. Efficient mobility management, long term partnerships and SMEs involvement can be key elements in achieving quantity and quality in mobility.

However, long term sustainability is not always for granted, sometimes lacking the necessary infrastructure support to facilitate mobility.

What can mobility stakeholders do to support high quality and sustainable international traineeships in VET?

Programme:
